Wiedent Acrylic Teeth  
Full or Partial  
Cabinets

WIEDENT Acrylic Teeth have been designed for use in prosthetic dentures. Thanks to WIEDENT's many years of experience in teeth design and manufacture, WIEDENT has been able to make a product that perfectly imitates natural teeth. WIEDENT's extensive range enables meeting all patient's needs, both in terms of shape and shade. WIEDENT acrylic teeth, like natural teeth, have a fluorescent effect. They are manufactured in several dozen anterior and posterior molds in Vita® shades.
